

# LITTLE QUIRKS

A U S T R A L I A

## I N T R O D U C I N G

Australian indie-rockers Little Quirks take their fans on an unforgettable journey filled with energy and smile-inducing harmonies. Fronted by three of the most musically-talented and hard-working women in the industry today, every performance is a treat for the ears and has to be experienced to believe.

Abbey, Jaymi and Mia manage a blend of high energy rock contrasted against indie-folk acoustic harmonies and produce a sound that is fresh and new, and instantly familiar.

With an envious live touring resume that counts Big Sound 2019, SXSW in Texas, The Great Escape 2022 (Brighton) and myriad festivals across the UK, Canada, US and Australia, they are building a catalogue of crowd-pleasing material and winning fans in all corners of the globe.

After the successful release of several Eps, Little Quirks will soon release their first studio album that showcases their immense talent and maturing style and vocals. Signed to ABC Music in Australia and New Zealand and renowned New York-based label Glassnote globally, the music industry is sitting up and taking notice and very quickly learning what we've known all along. Little Quirks are the real deal.

You'll hear them - you'll love them - you'll want more.
